# IMPERIUM INTERNATIONAL SECONDARY SCHOOL

## Nurturing Independent Learners for the Future

Collaborative Partners:

Imperium International Secondary School is an approved school by Cambridge Assessment International Education (CIE) and registered under MOE Malaysia.

## Message from the CEO

Greetings, one and all.

Our goal at Imperium International Secondary School is to give the next generation of leaders a high-quality and all-encompassing education. We make it our personal mission to continually monitor our students's academic and testing needs in order to support this objective. I firmly believe in the power of purposeful living and collaborative teaching and learning to shape our future.

We fully believe that the consistency of curricular guidelines and evaluations will propel us towards becoming a high-performing institution. Because we at IISS want to achieve success together, we have improvised our academic planning to help our students in every way.

At IISS, we strive to achieve success together, which is why we've improved our academic strategy to help our students in every way. Our Lower Secondary students will be exposed to and prepared for four IGCSE-based subjects so they can take the exams by the end of Year 9. In order to further develop and refine their talents, we also list the top 10 subjects for them at the IGCSE level in Year 10 itself.

The students have a better understanding of their professional options and prerequisites due to the much-needed exposure.

Every action we do at IISS always returns to our overarching objective of preparing our students for life and the aspiration for our beloved school is to inspire purposeful growth in both present and future students. In an era marked by rapid AI and technological advancements, I am committed to nurturing human-centered learning.

Together, we will equip our students to thrive in a global economy while preserving the core values that define Imperium. Let's embark on this transformative journey, ensuring that every student's potential is realized to the fullest. Emphasizing it again, it's motivating to have you here. Let's continue our objective to create a more solid structure that will lead students and assist them to grow into entirely brand-new individuals with excellent holistic qualities. I look forward to working hand in hand with this remarkable community, dedicated to fostering excellence in education and character development.

We are always here for you! We hope you will have a wonderful session ahead.

Till the next time.

Anne Rajasaikaran  
CEO

# Opening Note

Message from Head of School

Welcome to Imperium International Secondary School Kota Kinabalu Sabah. Join us in the historical journey of starting up our new educational chapter right in the heart of Kota Kinabalu. Our vast and solid experience in the operation of International School have brought us to where we now on “the land below the wind” spreading our wings of expansion from St John International School Kuala Lumpur to Imperium International Secondary School Kota Kinabalu.

“Imperium” a brand which is not only focusing on academy excellence, but our objective is to nurture the young mind with the right inputs and attitude to face the real world moving forward. It’s truly our responsibility as parents, teachers, and well-wishers to guide students on the right path to produce the best of the next generation.

The success of a student is the achievement of the teachers and the pride of the institution – it’s a chain reaction and the formula does not mount without the contribution from the academician and the commitment of the organization. Our teachers are well experienced in delivering methodologies to engage and cultivate students cognitive thinking capabilities to improve creativity and skills. As for the Institution we collectively agree that education is a

lifelong learning process and with the right mechanism and resources we should be able to identify and bring the best out of learners.

In the current global context, it’s a demand to nurture our students with holistic education preparing them to face their future effectively. Providing academic excellence, encouraging personal growth, and fostering cultural understanding by learning, collaborating, and appreciating each other’s perspective will certainly give a positive conviction to our students in their teenage epoch.

Our educational philosophy does not only focus on academic proficiency but provides a well-rounded edification with character development which will strongly prepare our students for tertiary education and their future career progress.

I extend an invitation to join our community and become stakeholders in our mission to provide young minds with an education of unparalleled excellence that knows no borders. Let’s collaborate to inspire and empower the next generation of leaders, guiding them to create a lasting positive impact on the world.

Mr Vasan Varathan  
Head of School

Examination**

3 Assessments per year

**External  
Examination**

CIE Exam

**Secondary School Hours**

Mon to Fri: 8.00am - 3.30pm

**Intake**

Admission based on case by case basis throughout the year.

Our Curriculum

# IGCSE

The Cambridge International General Certificate of Secondary Education (IGCSE) is one of the most recognised qualifications around the world.

Cambridge IGCSE courses are renowned for developing vital education skills, including recall of knowledge, oral skills, problem-solving, initiative, teamwork and investigate skills. The resulting qualification provides a foundation for higher level courses, such as Cambridge GCE A-Level, the North American Advanced Placement Programme and the International Baccalaureate.

The Cambridge IGCSE programme caters to different levels of ability with a choice between core and extended papers in many subjects. The core curriculum is based on an overview of the subject and is suitable for students expected to achieve grades between C to G.

The extended curriculum is more challenging and designed for students who are expected to achieve grades A to C. The grades achieved through either route possess the same value.

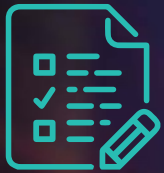

YEAR  
10-11

## Subjects Offered

- English
- Malay
- Mathematics
- Add. Mathematics OR ICT
- Chemistry
- Physics
- Biology
- Economics
- Accounting
- Business Studies

*All subjects are compulsory*

The more you learn,  
the more places you'll go.

# Embedded Programmes

## English Language Mastery Programme

Year 7: Basic English Language Mastery programme

Year 8: Intermediate English Language Enhancement Programme

Year 9: Advanced English Language Enhancement Programme

### Personal mastery : Exam Preparation Strategies

Personal mastery is a programme that we have adopted as part of our embedded programme. This programme will give students a strategic methodology to shape their study skills, learning goals and finally emerge as independent learners.

#### Programme highlights:

1. Learn how to take a strategic approach to exam preparation
2. Create a detailed plan to manage each subject
3. Discover the secrets of multiple-choice questions
4. Deal with exam stress and anxiety
5. Learn what to do before, during and after exam
